COST COMMENTARY

REVIEW OF TENDER PRICE MOVEMENTS IN HONG KONG

According to Rider Levett Bucknall's Tender Price Index, which measures tender price movements of builder's works in the private sector in Hong Kong, the tender prices moved upward slightly in the third quarter of 2016. On a year-on-year basis, the increase was 1.4%.

The following are the third quarter year-on-year tender price movements of builder's works in the private sector in the past five years:

2011 - 2012	2012 - 2013	2013 - 2014	2014 - 2015	2015 - 2016
+7.8%	+7.5%	+8.7%	+4.9%	+1.4%

Hong Kong's economy grew moderately by 1.9% year-on-year in real terms in the third quarter of 2016, compared with the 1.7% increase in the second quarter of 2016. On a seasonally adjusted quarter-to-quarter comparison basis, real GDP increased by 0.6% in the third quarter of 2016 over the second quarter of 2016. According to the Composite Consumer Price Index, overall consumer prices rose by 1.2% in October 2016 over the same month a year earlier, lower than the corresponding increase (2.7%) in September 2016. The seasonally adjusted unemployment rate and underemployment rate stood at 3.4% and 1.4% respectively in August 2016 to October 2016, same as those in July to September 2016.

Based on the statistics from Lands Department, the total land sales from Financial Year 2011/2012 to 2015/2016 (5 years) amounted to about 1,600,000 m² site area which was more than twice of the total land sales from Financial Year 2001/2002 to 2010/2011 (10 years) of about 700,000 m² site area, excluding land supply under private treaty grant (for property above MTR station, Home Ownership Scheme, etc.), public housing, lease modifications or exchange. In Financial Year 2016/2017 (up to December; 8 months), the recorded land sales have reached 260,000 m² site area, approaching the annual average of the past five years of

320,000 m² site area. The steady supply of land in the past few years and in the coming months will provide support to the construction industry amid a less optimistic economic outlook. With weaker material prices regionally and rising labour wages locally, tender prices are expected to move within a narrow range in the near future.

Macau

According to the Statistics and Census Service of the Macau government, Gross Domestic Product for the third quarter of 2016 increased by 4.2% year-on-year in real terms. The unemployment rate for August 2016 to October 2016 stood at 1.9%, same as that in July to September 2016. The average daily wage of construction workers was MOP768 in the third quarter of 2016, decreased by 2.5% on a quarter-to-quarter basis. The average daily wages of skilled and semi-skilled workers decreased by 3.5% to MOP773 but that of unskilled workers increased by 2.5% to MOP403.

The number of new buildings under construction in the private sector has decreased as compared with previous years. In the short run, there will be continual decrease in the demand on construction workers while the average daily wages of the majority of construction workers have been in gradual decline. It is expected that tender prices in Macau will remain weak before the government's investment in a number of infrastructures (e.g. the fourth Macau-Taipa bridge), social projects and public housing projects materialises.

NOTES 注:

- The construction costs above are based on prices obtained by competitive tendering for lump sum fixed price contracts with a normal contract period and are based on normal site conditions and locations. Extra costs should be allowed for projects with fast track programme, non-traditional procurement approaches and multi-phasing completion, etc. 以上单方造价指标按竞价价格下之包干合同编制, 并按正常工期、工地状况等为准。如项目采用快速施工、非传统式采购合约、分期施工等, 应考虑增加额外预算成本。
- The costs are average square metre unit costs only not based on any specific drawings / design. Therefore they provide nothing more than a rough guide to the probable cost of a building. Figures outside the given ranges may be encountered. When information is required on a specific project, it is essential that professional advice be sought. 平均单方造价并不是参考图纸或设计而编制。只可作为建筑造价之估算, 亦可能出现范围外之单价。若有特定之工程资料, 理应参考专业顾问之意见。
- The standards for each type of building in selected cities in China do not necessarily follow those in Hong Kong due to local design practices and choice of materials. 中国各城市之建筑标准、采纳之物料均有所不同, 并不需要与香港单价作比较。
- The building costs exclude furniture, fittings and equipment (except hotel / serviced apartment / clubhouse), site formation and external works, finance and legal expenses, consultants' fees and reimbursables, value of land and fluctuations in prices between the price date as specified above and the time of calling tenders. 建筑物单价并不包括家具及设备(酒店/服务式住宅/会所除外)、工地平整、室外工程、财务、法律、顾问公司等专业费用, 地价及由此单价生效日至投标时间之价格或汇率变动。
- Construction floor areas are measured to the outside face of external walls (or in the absence of such walls, the external perimeter) of the building & include all lift shafts, stairwells and E&M rooms but exclude lightwells and atrium voids. These areas are usually larger than Architect's calculation of Gross Floor Area (Plot Ratio Area). 建筑面积乃量度至建筑物外墙外面(若无外墙, 则量度至边境界), 并包括电梯井、楼梯井、机电间, 但不包括光井及大堂上部空间, 此等面积通常会大于建筑师计算之面积(容积率面积)。
- Other Specific Exclusions 其它不包括项目:
HOTEL 酒店: pre-opening expenses, operating expenses, working capital, staff training and administrative costs 开幕前费用、营运费用、开办费、员工培训及行政费等。
SHOPPING CENTRE 商场: fit out to tenant areas 租户之装修工程。

Building Age, Repair, Maintenance, Alteration & Addition

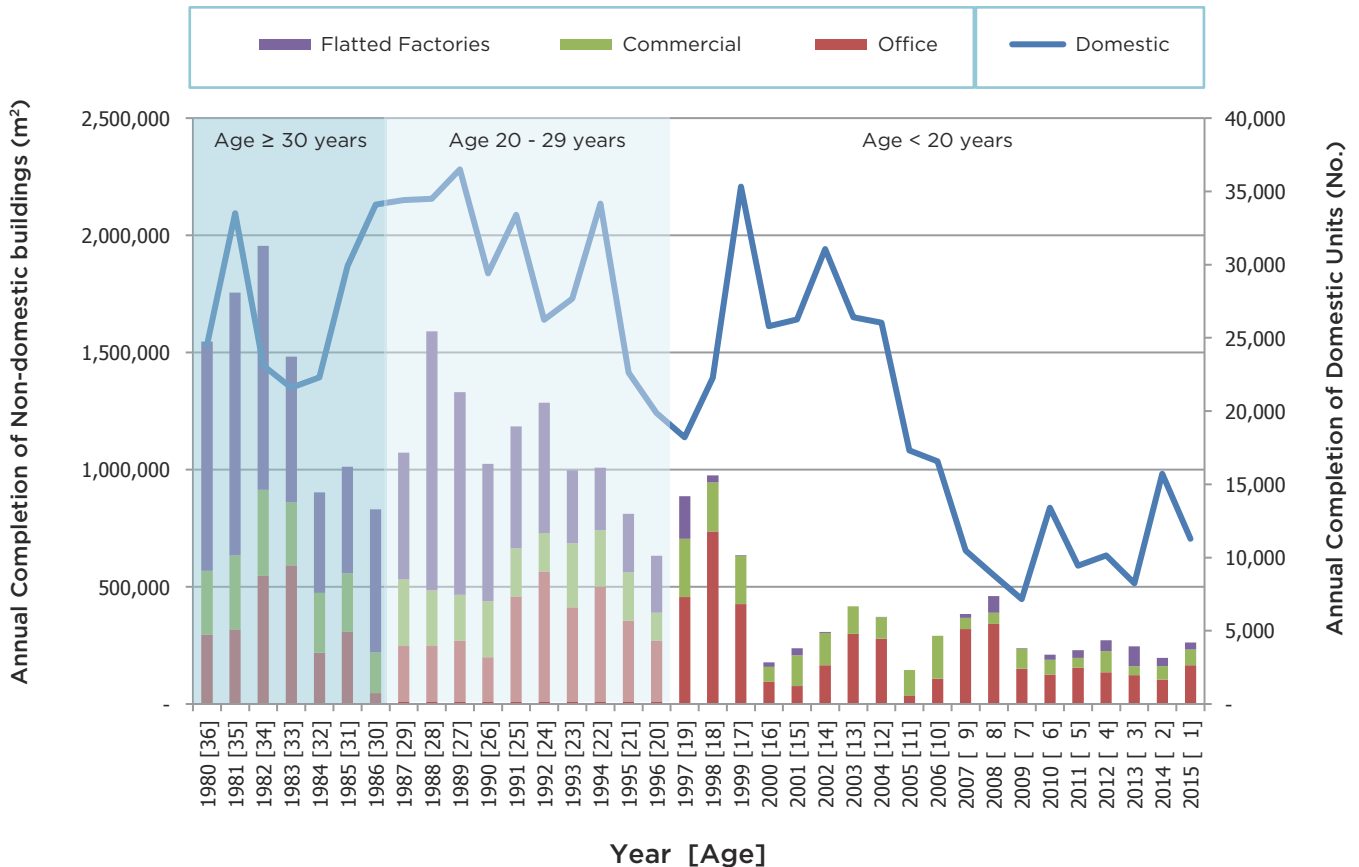

According to the Hong Kong Property Review published by Rating and Valuation Department, the stock distribution by Completion Year of major private buildings in Hong Kong at the end of 2015 is as follows:-

Private Building Type	Unit	Overall Stock at the end of 2015	Stock Distribution by Completion Year		
			Pre 1980	1980 - 1989	Post 1990
Domestic	No.	1,145,500	32%	24%	44%
Office	m ²	11,283,200	14%	26%	60%
Commercial	m ²	10,992,400	36%	29%	35%
Flatted Factories	m ²	16,850,800	39%	43%	18%

Source: Rating and Valuation Department

Below is a graph showing the annual completion of private buildings from Year 1980 to 2015.

Annual Completion of Major Private Buildings

Source: Rating and Valuation Department

The above statistics indicates that the stock of domestic and non-domestic buildings is aging. Under the Mandatory Building Inspection Scheme (MBIS), owners of buildings aged 30 years or above (except domestic buildings not exceeding 3 storeys), are statutorily required to carry out a prescribed inspection or repair of their buildings. It is likely that the demand on repair, maintenance, alteration and addition works will increase substantially in the coming years.
